The purpose of this document is to provide some advice and guidance for families in the event of continued school closures. We know that you will be anxious about your sons and daughters missing lessons. We want to ensure that all students have access to appropriate learning activities, but we are also aware that, in the current climate, there is a huge amount of information being shared and that this in itself can be overwhelming for both pupils and parents.

Planning Learning Activities

Over the page, each department has provided activities for pupils to undertake. Obviously, every family will be experiencing a different set of individual circumstances which may impact on pupils’ ability to engage in school work. We understand this, but if schools do have to continue to be closed for a period of time, and your son or daughter is well, it may be useful to consider establishing a routine in order to maintain some sense of normality and structure. We would suggest establishing three subject based activities per day of approximately 45 minutes. We would also encourage pupils to use any extra free time they have to read, to take exercise and to take some time to relax.

The details included here will provide a starting point. If necessary, we will update this information with further suggestions and resources. If possible, please keep in touch with the school electronically and via social media. Follow us on twitter @bryntirioncomp and use the school website http://www.bryntirioncs.bridgend.sch.uk/

Communication Tools

Suggested activities for distance learning for pupils will be emailed out to parents/pupils. The activities will be able to be accessed through TEAMS. All pupils have a username address which allows them to access Teams. The address is their school username@bryntirioncs.bridgend.sch.uk and the password will be the same as the one they use to log into the computer at school.

Teams

Teams are online collaborative working environments for teachers and learners. Staff can post material, information and assignments in the Team for pupils to view and complete.

To access Teams pupils’ access the school’s rmunify site, open One Drive and launch the Teams app.

Instructions on how to access the different online learning platforms is available on the school website, along with user guides for using Teams effectively. They are found in the useful links for pupils’ area of the website.

Finally, this Friday is a Bank Holiday in the UK, where we will be celebrating VE day. Information about how the school will mark this occasion have been sent out by email and we encourage as many of you as possible to get involved in a safe way.

### Design Technology

**Activity 1**
Follow the link to the Design Technology Key Stage 3 Team, choose at least one film to watch and use it to help you think creatively and create a designing solution. You can of course watch more than one. Also, if you think of another great film that has some design/engineering in it then you can come up with a design problem and solution for that. Have fun!

**Activity 2**
NOT mandatory to cook – only if you have the ingredients.

VE Day Celebration Cake: Next Friday is a National Day of Celebration. It is the 75th Anniversary of Victory in Europe (VE day). The Royal British Legion have sent some ideas for pupils to create a celebration. They would like you to "Celebrate, give thanks and reflect". One of the ideas is for pupils to make a Victory Celebration Cake using 1945 cooking methods and ingredients. If you can make a cake, or fairy cakes and even decorate them, or even try making any other 1945 recipe, then send in your photos! You will need to conduct some research on recipes from that era. Good luck.
